THE FULL RANGE

CGU Series

It is important to select the refrigeration unit that best suits the working conditions in which it will be expected to perform. CGU series was created to help you and your customer understand the Polar product range and find the best suited Polar product to fit the customer's needs.

It can be a false economy buying purely on price as purchasing a product that is not up to the job required can lead to poor performance, a shorter working life and more regular repairs and replacements.

C-Series	G-Series	U-Series
<p>Choose C-series refrigeration if you won't need access to the unit often.</p> <p>The C-series range works in conditions up to 32°C.</p>	<p>Choose G-series if you need a hard working unit.</p> <p>G-series is built with strong commercial construction and high quality materials throughout.</p>	<p>Choose U-series if you expect to access the unit very frequently.</p> <p>U-series built to the highest commercial specifications these units feature powerful forced air cooling to reliably keep a consistently cool temperature, maintaining food taste while reducing food waste even in conditions up to 43°C.</p>

3 easy ways to shop
Online, by phone or in store

Commercial Fridges

A variety of robust and reliable refrigeration units for all your chilled storage needs.

Upright Fridges

Includes hard-wearing stainless steel single, double and slimline storage cabinets with capacities ranging from 400 to 1300 litres for both light and heavy duty use.

Prep Counters

Practical and robust units allow you to keep chilled ingredients within easy reach for quick and efficient prep and service. Under counter storage and GN compatible models available.

Counter Fridges

Chilled storage and food prep area all in one robust package for when space is at a premium. We have 1, 2, 3 or 4 door counters available or choose a drawer model for more organised storage.

Undercounter Fridges

Compact and lightweight energy-efficient units operate with minimum noise and offer generous amounts of chilled storage. You'll be comfortable using in front or back of house settings.

Commercial Freezers

Expertly designed commercial freezers offer accurate temperature control and generous storage space.

Upright Freezers

Highly practical and hard-wearing cabinet freezers offer you generous capacity without eating into your kitchen space. Enjoy quick and easy access to your frozen foodstuffs.

Counter Freezers

Choose from a selection of models featuring lockable and self-closing doors, thermal insulation, rapid chill recovery rate and capacities ranging from 282 to 417 litres.

Blast Chillers

Powerful blast chillers to rapidly reduce food temperatures – and extend the shelf life, texture, flavour and nutritional value of your ingredients. Shop countertop and freestanding models.

Undercounter Freezers

White or stainless steel finished units provide up to 140 litres of discreet frozen storage space. Compact design mean they can be conveniently placed for uninterrupted kitchen workflow.

Display Refrigeration

Stylish display units because your customers are more likely to buy it if they can see it.

Bar Fridges

Robust and compact units allow you to place cool beers in full view of your customers for improved sales. They also help your staff provide a quick and efficient service.

Display Freezers

Make it an easy choice for your customers by improving visibility of your frozen foods. Whether it's boxed ready meals or farm shop-style specialties, Polar display freezers maximise sales.

Display Fridges

Keep chilled foods and drinks attractively merchandised and ready to serve. With efficient LED lights and all-round displays available, Polar displays are eye-catching additions to any retail area.

Wine Coolers

You'll get storage space for up to 180 Bordeaux-style bottles of wine ready to serve to your customers at optimum temperature. Available in eye catching stainless steel or black finish.
